

# KB-0065-Install GuardNVR without WMP11-4.1.0.0

## GENERAL

Distribution	OEM/Partner/Distributor	Installer	Customer
	YES	YES	YES
Last Update	04-03-2009		
Product	GuardNVR		
Version	Version 4.1.0.0 or higher		

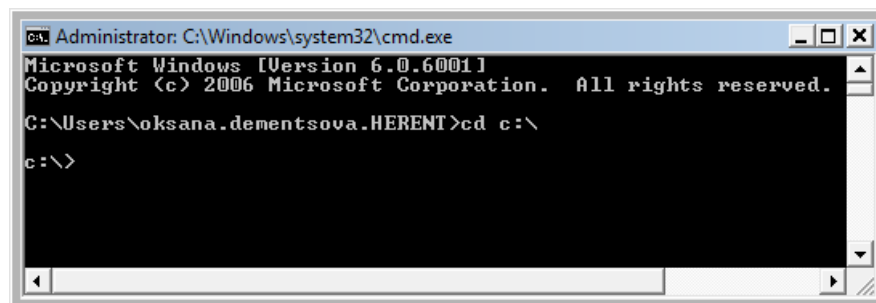

## DESCRIPTION

GuardNVR version requires Windows Media Player 11 to be installed. In some situations, this is not possible. An example is Windows Server 2003. This article describes how to install GuardNVR without having WMP11 installed.

## SOLUTION

Please perform the following steps:

1. Copy the GuardNVR installation file (GuardNVR-4.1.0.0.exe) to C:\ drive.
2. Go to **Start** → **Run** → **cmd**.
3. Navigate to C:\ drive. Type **cd c:\** and press enter.

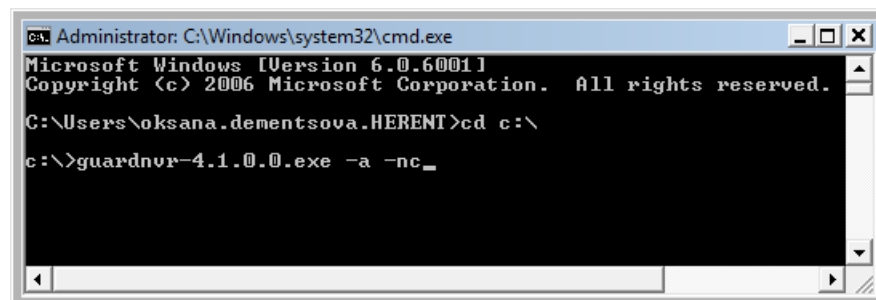

```
Administrator: C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.0.6001]
Copyright (c) 2006 Microsoft Corporation. All rights reserved.

C:\Users\oksana.dementsova.HERENT>cd c:\
c:\>
```

4. Run the installation with the keys **-a -nc**. Your string becomes

**guardnvr-4.1.0.0.exe -a -nc**

This will disable the prerequisites check and allow installing Guard NVR without WMP11.

```
Administrator: C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.0.6001]
Copyright (c) 2006 Microsoft Corporation. All rights reserved.

C:\Users\oksana.dementsova.HERENT>cd c:\
c:\>guardnvr-4.1.0.0.exe -a -nc
```

5. Please follow the installation procedure. During the installation you will receive two extra warnings. Click **OK**.

Once the installation is completed, GuardNVR 4.1.0.0 is installed without WMP11 and can be used.
